

**FROM THE PRINCIPAL**

Dear Parents and Community Members,

The Oregon Department of Education has released the annual school report cards. The report card offers a snapshot of our school. It explains how our students are performing in comparison to other schools and whether our students are making sufficient progress over time. We have raised the academic expectations and rigor to meet the state standards and our students responded. Once again, Boring Middle School received a Level 5, the highest level possible, in Academic Growth. Boring Middle school was above the state average in each subject area at each grade. Our Math and Literacy labs have been tremendously successful in improving students' academic achievement. When students attend

school regularly and put forth a sustained effort, our teachers help them grow academically. We will continue to assess our programs and practices to ensure all students are growing academically. The state uses this report card to focus its supports for schools and also to inform education policy. We use it as a key guide for understanding our school's strengths and the areas where we need to improve. I welcome your questions and comments about our report card and look forward to working together as a community to further strengthen our school.

Thank you,

Principal | Tim Werner
